

AROWHENUA

NATIVE NURSERY & RESTORATION

arowhenuanativennursery.co.nz

Availability List for – January 2026

Additional services: eco-sourced seed, grow-to-order and restoration services

Wholesale rates apply to orders over 120 plants

Prices excluded GST and pot and tray charges

Please contact Maria Prince (Sales and Contracts Manager) to place your order

Mobile: 027 264 8741 or email: maria.prince@ngaitahu.iwi.nz

Pot and Tray Charges - Credited to your account when returned to the nursery

T7 Pot	\$0.15
RX90 Pot	\$0.25
1L Pot	\$0.30
2L Pot	\$0.40
Tray	\$3.50

Item Name	Pot Size	Price	Quantity	Comments
Grasses and Sedges				
Anemanthele lessoniana	70 mm	\$2.15	High	Hunangamoho Gossamer Grass Wind Grass An attractive tussock-forming grass with feathery seed heads which sway in the wind. Leaves turn brown or copper in autumn. 1m x 1m
Carex buchananii	70 mm	\$2.15	High	Upright tuft reddish brown sedge - 0.4m x 0.6m
Carex secta	70 mm	\$2.15	High	Pukio Swamp sedge Vigorous, fast-growing green sedge, ideal for stream and wetland planting. 1.5m x 1.5m
Carex solandri	70 mm	\$2.15	Low	A hardy, clump-forming sedge with fine green foliage that thrives in damp soils and riparian zones. Provides excellent bank stabilization and improves water quality while creating cover for aquatic life. Ideal for wetland restoration and erosion control 0.6m x 0.6m.
Carex virgata	70 mm	\$2.15	High	Pukio Swamp sedge A sedge used for wetland planting and revegetation. Suitable in very wet to very dry areas - 1m x 1m
Festuca novae-zelandiae	70 mm	\$2.15	Medium	A common, hardy low tussock. Tolerates poor soils and cold, windy conditions. 0.7m x 0.7m
Poa cita	70 mm	\$2.15	High	Silver Tussock Rapid-growing, densely tufted tussock, it thrives particularly well in dry, exposed sites and can adapt to poor soils with ease. Hardy and resilient - 0.8m x 0.7m
Poa colensoi	70 mm	\$2.15	High	A dense, tufted native grass with fine bluish-green leaves and slender flowering stems, commonly found in alpine and subalpine regions, in tussocklands, rocky slopes, and well-drained soils.
Poa colensoi	85 mm	\$3.05	Low	A dense, tufted native grass with fine bluish-green leaves and slender flowering stems, commonly found in alpine and subalpine regions, in tussocklands, rocky slopes, and well-drained soils.

Shrubs				
Apodasmia similis	70 mm	\$2.00	High	Oi oi Jointed Wire Rush Wetland reed with fine grey-green leaves & brownish bracts at the joint - 1m x1m. Currently on special for \$2.00 inc pot, tray and GST
Apodasmia similis	1 Ltr	\$6.20	Low	Oi oi Jointed Wire Rush Wetland reed with fine grey-green leaves & brownish bracts at the joint - 1m x1m
Austroderia richardii	70 mm	\$2.20	High	Toetoe A large, fast-growing coarse green tussock - 2m x2m
Austroderia richardii	1 Ltr	\$6.20	Low	Toetoe A large, fast-growing coarse green tussock - 2m x2m
Coprosma dumosa	70 mm	\$2.20	Low	Tatarahēke Brown-stemmed Coprosma Hardy groundcover shrub, wiry, interlaced brown stems and small narrow leaves. Suitable in full sun and well-drained soils - 0.2m x 1m
Coprosma lucida	70 mm	\$2.20	Low	Karamu Shining Karamu Small shrub with large glossy leaves. Berries and seeds attract birds. Hardy. 6m x 3m

Item Name	Pot Size	Price	Quantity	Comments
<i>Coprosma propinqua</i>	70 mm	\$2.20	Low	Mingmingi. A dense, divaricating shrub with wiry branches and small dark green leaves, found along stream margins and open scrub. 1m x 3m.
<i>Coprosma propinqua</i>	85 mm	\$3.10	Low	Mingmingi. A dense, divaricating shrub with wiry branches and small dark green leaves, found along stream margins and open scrub. 1m x 3m.
<i>Coprosma rigida</i>	70 mm	\$2.20	Medium	A hardy, upright shrub with stiff, interlaced branches and small glossy green leaves. Excellent for stabilizing stream banks and providing shelter for birds and insects. Thrives in damp soils and tolerates frost 1.5m x 1.5m.
<i>Coprosma rigida</i>	85 mm	\$3.10	Low	A hardy, upright shrub with stiff, interlaced branches and small glossy green leaves. Excellent for stabilizing stream banks and providing shelter for birds and insects. Thrives in damp soils and tolerates frost 1.5m x 1.5m.
<i>Coprosma robusta</i>	70 mm	\$2.20	High	Karamu Glossy Karamu A fast-growing shelter, hedging and nurse plant - 4m x 5m
<i>Coprosma robusta</i>	85 mm	\$3.10	Medium	Karamu Glossy Karamu A fast-growing shelter, hedging and nurse plant - 4m x 5m
<i>Coprosma rugosa</i>	70 mm	\$2.20	High	Needle-leaved Mountain Coprosma A compact, upright shrub. Attractive orange/chocolate brown interlaced foliage - 2x 3m
<i>Fuchsia excorticata</i>	85 mm	\$3.10	Low	Kotukutuku Tree Fuchsia. Small tree with papery orange bark. Hardy, deciduous, likes moist soil. 6m h x 3m w
<i>Juncus edgariae</i>	85 mm	\$3.10	Low	Wiwi Edgar's Rush A upright rush grown in damp ground, ideal for wetland restoration. 0.6m x 1.2m
<i>Juncus pallidus</i>	70 mm	\$2.20	Low	Wiwi Giant Rush An upright rush, which can be grown in damp ground and standing water, also handles heat and drought. Ideal for wetland restoration 1.2m x 1.5m
<i>Lophomyrtus obcordata</i>	85 mm	\$3.10	Low	A compact, evergreen shrub with tiny, rounded green leaves and delicate white flowers in summer. Provides excellent shelter for birds and insects and tolerates frost and wind. Ideal for riparian and wetland margins 1.5m x 1.5m.
<i>Muehlenbeckia complexa</i>	70 mm	\$2.20	Low	A vigorous, twining native vine with wiry, interlaced stems and small, rounded green leaves, commonly found in coastal and lowland areas. 5m x 5m
<i>Olearia avicenniifolia</i>	70 mm	\$2.20	Low	Mountain Ake Ake Spreading shrub/small tree with sweet scented flowers and grey/green leaves and thin papery bark. Tolerates exposure - 3m x 4m
<i>Olearia avicenniifolia</i>	2 Ltr	\$11.45	Medium	Mountain Ake Ake Spreading shrub/small tree with sweet scented flowers and grey/green leaves and thin papery bark. Tolerates exposure - 3m x 4m
<i>Olearia bullata</i>	70 mm	\$2.20	Medium	<i>Olearia</i> A divaricating shrub with small brownish-green leaves on interlacing twigs. White flowers in clusters. Excellent for damp, well-drained sites - 2m x 3m
<i>Olearia lineata</i>	70 mm	\$2.50	Low	Twiggy tree daisy Fine-textured, evergreen. Interlacing branches, small, narrow grey-green leaves. Fragrant white flowers. Hardy. Tolerates wind, drought and light frosts. 5m x 3m
<i>Olearia nummulariifolia</i>	2 Ltr	\$11.45	Low	A hardy, compact shrub with small, rounded yellow-green leaves and clusters of daisy-like white flowers in summer. Excellent for exposed sites, tolerates frost and wind, and provides nectar for pollinators 2.5m x 2.5m.
<i>Olearia paniculata</i>	70 mm	\$2.20	Low	Akiraho / Golden Akeake. A fast-growing, hardy shrub or small tree with glossy green leaves and wavy golden margins. Produces clusters of creamy-white, fragrant flowers in summer, attracting pollinators. Excellent for shelter, coastal planting, and erosion control 4m x 2m
<i>Olearia paniculata</i>	85 mm	\$3.10	Low	Akiraho / Golden Akeake. A fast-growing, hardy shrub or small tree with glossy green leaves and wavy golden margins. Produces clusters of creamy-white, fragrant flowers in summer, attracting pollinators. Excellent for shelter, coastal planting, and erosion control 4m x 2m
<i>Olearia paniculata</i>	2 Ltr	\$11.45	Low	Akiraho / Golden Akeake. A fast-growing, hardy shrub or small tree with glossy green leaves and wavy golden margins. Produces clusters of creamy-white, fragrant flowers in summer, attracting pollinators. Excellent for shelter, coastal planting, and erosion control 4m x 2m

Item Name	Pot Size	Price	Quantity	Comments
Ozothamnus leptophyllus	1 Ltr	\$6.20	Low	Tauhinu Cottonwood This rapid growing shrub is a prolific coloniser of dry, exposed sites. Evergreen. Hardy 2m x 2m
Phormium cookianum	70 mm	\$2.20	High	Wharariki Mountain Flax Drooping, twisted seed pods and wide, glossy-green, weeping leaves. Excellent choice for erosion control on banks and bunds. Tolerant to dry, cold, and exposed conditions - 1.5m x 1.5m
Phormium cookianum	85 mm	\$3.10	High	Wharariki Mountain Flax Drooping, twisted seed pods and wide, glossy-green, weeping leaves. Excellent choice for erosion control on banks and bunds. Tolerant to dry, cold, and exposed conditions - 1.5m x 1.5m
Phormium tenax	70 mm	\$2.20	Low	Harakeke NZ Flax An exceptional low shelter and erosion control solution, Very hardy; thrives in diverse environments from swampy areas to coastal regions - 2m x 3m
Phormium tenax	85 mm	\$3.10	High	Harakeke NZ Flax An exceptional low shelter and erosion control solution, Very hardy; thrives in diverse environments from swampy areas to coastal regions - 2m x 3m
Phormium tenax Red	1 Ltr	\$6.20	Low	Harakeke NZ Flax An exceptional low shelter and erosion control solution, Very hardy; thrives in diverse environments from swampy areas to coastal regions - 2m x 3m
Pimelea prostrata	1 Ltr	\$6.20	Low	Pinatoro. NZ Daphne. A compact, fast-growing coastal ground-cover. Small, pointed, blue foliage and tiny starry white flowers - 0.3m x 1m
Plagianthus divaricatus	85 mm	\$3.10	High	Makaka Saltmarsh Ribbonwood Dense tangled shrub with silvery stems and small green leaves. Salt and wind resistant and tolerant of wet, swampy soils. Semi-deciduous. Hardy - 2m x 2m
Podocarpus nivalis	70 mm	\$2.20	Low	Snow tōtara. A low, spreading alpine conifer with dense, dark green needle-like foliage, commonly found in subalpine and alpine rocky slopes. 2.5m x .5m
Podocarpus nivalis	85 mm	\$3.10	Low	Snow tōtara. A low, spreading alpine conifer with dense, dark green needle-like foliage, commonly found in subalpine and alpine rocky slopes. 2.5m x .5m
Sophora prostrata	85 mm	\$3.10	Low	low, divaricating shrub with tangled, wiry branches and small, sparse leaves, commonly found in dry scrub and rocky areas of eastern South Island. 2m x 2m.
Teucrium parvifolium	70 mm	\$2.20	Low	A hardy, low-growing shrub with small grey-green leaves and clusters of pale lilac flowers in summer. Excellent for dry, exposed sites, tolerates frost and wind, and attracts pollinators 0.5m x 1m.
Typha orientalis	1 Ltr	\$6.20	Low	Raupo. A tall, robust wetland plant with strap-like green leaves and distinctive brown cylindrical flower spikes. Thrives in shallow water and swampy soils, providing habitat for birds and stabilizing wetland margins. Traditionally valued for weaving and food up to 2.5m x 1m.

Trees				
Aristotelia fruticosa	70 mm	\$2.30	Low	Mountain wineberry. small, dense shrub with finely divided leaves and reddish stems, commonly found in subalpine scrub and rocky slopes. 2m x 2m.
Aristotelia serrata	85 mm	\$3.25	Low	Makomako Wineberry A small tree with heart-shaped, serrated leaves. Pink flowers in spring and small dark berries in autumn which are attractive to birds. 3m x 6m
Aristotelia serrata	1 Ltr	\$6.50	Low	Makomako Wineberry A small tree with heart-shaped, serrated leaves. Pink flowers in spring and small dark berries in autumn which are attractive to birds. 3m x 6m
Carpodetus serratus	85 mm	\$3.25	Low	Putaputaweta Marble leaf A small, slow growing tree. Marble, serrated leaves. Produces masses of white flowers through Spring. Prefers part to full shade - 10m x 4m
Carpodetus serratus	1 Ltr	\$6.50	Low	Putaputaweta Marble leaf A small, slow growing tree. Marble, serrated leaves. Produces masses of white flowers through Spring. Prefers part to full shade - 10m x 4m
Cordyline australis	1 Ltr	\$6.50	Low	Ti Kouka Cabbage Tree Multi-trunked with tufts of green foliage and sweetly-scented flowers 2m x 10m
Fuchsia excorticata	70 mm	\$2.20	Low	Kotukutuku Tree Fuchsia. Small tree with papery orange bark. Hardy, deciduous, likes moist soil. 6m h x 3m w

Item Name	Pot Size	Price	Quantity	Comments
<i>Fuscospora solandri</i>	1 Ltr	\$6.50	Low	Tawhairauriki. Black beech. An attractive tree with sculptural black bark and dark green round leaves - 5m x 20m
<i>Griselinia littoralis</i>	70 mm	\$2.30	High	Kapuka Broadleaf Bushy tree with a rough dark trunk bearing thick glossy green rounded leaves - 2.5m x 6m
<i>Griselinia littoralis</i>	85 mm	\$3.25	High	Kapuka Broadleaf Bushy tree with a rough dark trunk bearing thick glossy green rounded leaves - 2.5m x 6m
<i>Griselinia littoralis</i>	1 Ltr	\$6.50	Low	Kapuka Broadleaf Bushy tree with a rough dark trunk bearing thick glossy green rounded leaves - 2.5m x 6m
<i>Hoheria angustifolia</i>	70 mm	\$2.30	Low	Houhere. Narrow-leaved lacebark. A small tree that bears masses of white flowers. Drought tolerant and low-flammability. Medicinal 3m x 6m
<i>Hoheria angustifolia</i>	85 mm	\$3.25	High	Houhere. Narrow-leaved lacebark. A small tree that bears masses of white flowers. Drought tolerant and low-flammability. Medicinal 3m x 6m
<i>Hoheria angustifolia</i>	1 Ltr	\$6.50	Low	Houhere. Narrow-leaved lacebark. A small tree that bears masses of white flowers. Drought tolerant and low-flammability. Medicinal 3m x 6m
<i>Melicytus lanceolatus</i>	70 mm	\$2.30	Low	Mahoe-wao. Narrow-leaved mahoe. A small, bushy tree. Bears purple berries that attract native birds. 5m.
<i>Melicytus ramiflorus</i>	85 mm	\$3.25	Medium	Mahoe-wao Narrow-leaved mahoe A small, bushy tree. Bears purple berries that attract native birds. 5m.
<i>Melicytus ramiflorus</i>	1 Ltr	\$6.50	Low	Mahoe-wao Narrow-leaved mahoe A small, bushy tree. Bears purple berries that attract native birds. 5m.
<i>Myrsine divaricata</i>	70 mm	\$2.30	Low	Weeping Mapou A bushy shrub with an attractive weeping habit. Hardy - 3m x 6m.
<i>Myrsine divaricata</i>	85 mm	\$3.25	Low	Weeping Mapou A bushy shrub with an attractive weeping habit. Hardy - 3m x 6m.
<i>Pittosporum colensoi</i>	85 mm	\$3.25	Low	A hardy, bushy shrub or small tree with leathery green leaves and clusters of fragrant, creamy-white flowers in spring. Excellent for shelter and forest restoration, tolerates frost and wind 3m x 2m.
<i>Pittosporum crassifolium</i>	85 mm	\$3.25	Low	Karo A small, densely-foliaged bush or small tree. Excellent on the coast. Dark-red flowers and grey/green leaves. Frost-tender when young. 3m x 5m
<i>Pittosporum ralphii</i>	85 mm	\$3.25	High	A hardy, upright shrub or small tree with leathery green leaves and clusters of fragrant, creamy-white flowers in spring. Excellent for shelter and revegetation in dry, exposed sites; tolerates frost and wind 3m x 2m.
<i>Plagianthus regius</i>	1 Ltr	\$6.50	Low	Manatu Ribbonwood Medium sized, wind resistant, spreading tree. Small, divaricating, juvenile foliage is replaced by larger birch-like adult foliage. Fast-growing, Semi-deciduous. Hardy - 4m x 12m
<i>Podocarpus acutifolius</i>	70 mm	\$2.30	Medium	Needle-leaved totara Shrub or small tree with narrow, needle-like foliage of dark green to yellow-green. Hardy, evergreen. Thrives in moist, well-drained soils, tolerates full sun. 3m x 6m
<i>Podocarpus acutifolius</i>	85 mm	\$3.25	Low	Needle-leaved totara Shrub or small tree with narrow, needle-like foliage of dark green to yellow-green. Hardy, evergreen. Thrives in moist, well-drained soils, tolerates full sun.
<i>Pseudopanax arboreus</i>	70 mm	\$2.30	Low	Five Finger A small tree bearing five leaves on each stem, bearing purple-black fruit which is attractive to birds. 3m x 6m
<i>Pseudopanax arboreus</i>	85 mm	\$3.25	High	Five Finger A small tree bearing five leaves on each stem, bearing purple-black fruit which is attractive to birds. 3m x 6m
<i>Schefflera digitata</i>	70 mm	\$2.30	Low	Patate Seven Finger A small-medium tree bearing seven leaves on each stem, bearing purple-black fruit which is attractive to birds. 3m x 6m
<i>Schefflera digitata</i>	2 Ltr	\$11.00	Low	Patate Seven Finger A small-medium tree bearing seven leaves on each stem, bearing purple-black fruit which is attractive to birds. 3m x 6m
<i>Sophora microphylla</i>	70 mm	\$2.30	High	Kōwhai. Small leguminous tree with attractive fern-like foliage. Tangled juvenile stage leads to a stately adult tree. Flowers profusely from September-November. Nectar attractive to birds. Semi-deciduous. Hardy - 3m x 8m

Item Name	Pot Size	Price	Quantity	Comments
<i>Sophora microphylla</i>	85 mm	\$3.25	High	Kōwhai. Small leguminous tree with attractive fern-like foliage. Tangled juvenile stage leads to a stately adult tree. Flowers profusely from September-November. Nectar attractive to birds. Semi-deciduous. Hardy - 3m x 8m
<i>Sophora microphylla</i>	1 Ltr	\$6.50	Low	Kōwhai. Small leguminous tree with attractive fern-like foliage. Tangled juvenile stage leads to a stately adult tree. Flowers profusely from September-November. Nectar attractive to birds. Semi-deciduous. Hardy - 3m x 8m

Legacy Trees				
<i>Dacrycarpus dacrydioides</i>	70 mm	\$4.00	High	Kahikatea White Pine The tallest growing native tree, featuring handsome mature foliage and attractive buttressed roots - 5m x 50m
<i>Dacrycarpus dacrydioides</i>	85 mm	\$6.00	High	Kahikatea White Pine The tallest growing native tree, featuring handsome mature foliage and attractive buttressed roots - 5m x 50m
<i>Dacrycarpus dacrydioides</i>	1 Ltr	\$11.00	High	Kahikatea White Pine The tallest growing native tree, featuring handsome mature foliage and attractive buttressed roots - 5m x 50m
<i>Dacrycarpus dacrydioides</i>	2 Ltr	\$13.00	Low	Kahikatea White Pine The tallest growing native tree, featuring handsome mature foliage and attractive buttressed roots - 5m x 50m
<i>Prumnopitys taxifolia</i>	85 mm	\$6.00	Low	Matai Black Pine. tall, slow-growing native conifer with fine, dark green needle-like leaves and small, fleshy purple-black seed cones, typically found in lowland to montane forests. 2m x 30m
<i>Prumnopitys taxifolia</i>	1 Ltr	\$11.00	Low	Matai Black Pine. tall, slow-growing native conifer with fine, dark green needle-like leaves and small, fleshy purple-black seed cones, typically found in lowland to montane forests. 2m x 30m

Endangered/Unique/Hard to Grow				
<i>Aciphylla aurea</i>	1 Ltr	\$8.00	Low	Height - 30cm with flower spike - 1.5m
<i>Carmichaelia australis</i>	70 mm	\$2.50	Low	Native broom An upright bush with tiny inconspicuous leaves and mauve flowers - 2m x 3m
<i>Muehlenbeckia axillaris</i>	70 mm	\$2.50	Low	A dense ground-cover with wiry stems and small dark-green leaves. Prefers full sun. Tolerant of hot, dry conditions - 1m x 0.2m
<i>Muehlenbeckia ephedroides</i>	70 mm	\$2.50	Low	Forms a dense mat of wiry, brown stems with tiny, green leaves that are barely visible. Costal to subalpine - 2m x 0.4m
<i>Melicytus alpinus</i>	85 mm	\$3.50	Low	Porcupine bush. A dense, low-growing, with a highly branched habit, forming a compact, spiny shrub. It typically grows prostrate or mounded, hugging the ground in exposed sites, and can spread widely while remaining only 30–60 cm high
<i>Olearia adenocarpa</i>	70 mm	\$2.50	Low	<i>Olearia adenocarpa</i> is a critically endangered species. A spreading, small leaf shrub with fragrant flower. Withstands harsh, drought-prone places. 1.5m x 1.5m
<i>Olearia fimbriata</i>	70 mm	\$2.50	Low	A small, wiry shrub with narrow, fibrous leaves and clusters of tiny white daisy-like flowers, typically found in dry, rocky alpine and subalpine regions.
<i>Phyllocladus alpinus</i>	70 mm	\$2.50	Low	A hardy, slow-growing shrub or small tree with distinctive flattened, leaf-like branchlets and tiny scale leaves, commonly found in subalpine to alpine regions.
<i>Pseudopanax ferox</i>	70 mm	\$2.50	Medium	Horoeka / Fierce-Toothed Lancewood. A slow-growing tree with narrow, saw-like brown juvenile leaves. Becomes a bushy-topped tree with a clean, slender trunk. Attractive to pollinators. Hardier than <i>P. crassifolius</i> - 2m x 5m

Specials - Full Trays Only				
				70mm trays = 40 plants, 85mm trays = 28 plants
<i>Carex maorica</i>	70 mm	\$0.50	High	Maori sedge NZ Sedge A wetland sedge growing into upright arching clumps - 0.5m x 1m
<i>Carex testacea</i>	70 mm	\$0.50	High	Orange sedge A rich green and orange sedge - 0.6m x 0.6m
<i>Coprosma Black Cloud</i>	70 mm	\$0.50	Low	A low, spreading groundcover shrub with dense, glossy, dark purple-black foliage, commonly used in coastal and lowland gardens. 2m x 0.6m
<i>Coprosma repens</i>	70 mm	\$0.50	High	Taupata Mirror plant A large coastal shrub/small tree with broad glossy, dark-green leaves - 3m x 5m

Item Name	Pot Size	Price	Quantity	Comments
<i>Cordyline indivisa</i>	70 mm	\$0.50	High	Toi Mountain Cabbage Tree Palm-like small upland tree with few erect branches that have tufts of tough long wide pointed blueish-green leaves - 8m
<i>Dodonaea viscosa</i>	70 mm	\$0.50	High	AkeakeRed and Green AkeakeAttractive, fast-growing small tree with red or green foliage - 2.5m x 7m
<i>Haloragis erecta</i>	70 mm	\$0.50	Medium	Toatoa Shrubby haloragis A perennial herb endemic to New Zealand. A coloniser often found on slip scars and burnt ground. Drought tolerant, but also suitable for moist soils. Grows in coastal-montane regions. 1m x 1m
<i>Hoheria populnea</i>	70 mm	\$0.50	High	
<i>Hoheria sexstylosa</i>	85 mm	\$0.50	Low	
<i>Ozothamnus leptophyllus</i>	70 mm	\$0.50	Low	Tauhinu Cottonwood This rapid growing shrub is a prolific coloniser of dry, exposed sites. Evergreen. Hardy 2m x 2m
<i>Ozothamnus leptophyllus</i>	85 mm	\$0.50	Low	Tauhinu Cottonwood This rapid growing shrub is a prolific coloniser of dry, exposed sites. Evergreen. Hardy 2m x 2m
<i>Pittosporum colensoi</i>	70 mm	\$0.50	High	A hardy, bushy shrub or small tree with leathery green leaves and clusters of fragrant, creamy-white flowers in spring. Excellent for shelter and forest restoration, tolerates frost and wind 3m x 2m.
<i>Pittosporum crassifolium</i>	70 mm	\$0.50	Low	
<i>Pittosporum eugenoides</i>	70 mm	\$0.50	High	Tarata. Lemonwood. Fast-growing shelter or hedging tree, with highly scented flowers that are attractive to pollinators. Long, light-green glossy leaves. Frost-tender when young - 3m x 12m
<i>Pittosporum eugenoides</i>	85 mm	\$0.50	High	Tarata. Lemonwood. Fast-growing shelter or hedging tree, with highly scented flowers that are attractive to pollinators. Long, light-green glossy leaves. Frost-tender when young - 3m x 12m
<i>Pittosporum tenuifolium</i>	70 mm	\$0.50	High	Kohuhu. A small, elegant tree with wavy-edged, glossy green leaves and dark purple flowers, commonly found in lowland and montane forests. 3m x 8m
<i>Pittosporum tenuifolium</i>	70 mm	\$0.50	Low	cultivar Kohuhu. A small, elegant tree with wavy-edged, glossy green leaves and dark purple flowers, commonly found in lowland and montane forests. 3m x 8m
<i>Pittosporum tenuifolium</i>	85 mm	\$0.50	Low	cultivar Kohuhu. A small, elegant tree with wavy-edged, glossy green leaves and dark purple flowers, commonly found in lowland and montane forests. 3m x 8m
<i>Pittosporum tenuifolium</i>	85 mm	\$0.50	Medium	Kohuhu. A small, elegant tree with wavy-edged, glossy green leaves and dark purple flowers, commonly found in lowland and montane forests. 3m x 8m
<i>Plagianthus divaricatus</i>	70 mm	\$0.50	High	Makaka Saltmarsh Ribbonwood Dense tangled shrub with silvery stems and small green leaves. Salt and wind resistant and tolerant of wet, swampy soils, Semi-deciduous. Hardy - 2m x 2m
<i>Plagianthus regius</i>	70 mm	\$0.50	High	Manatu Ribbonwood Medium sized, wind resistant, spreading tree. Small, divaricating, juvenile foliage is replaced by larger birch-like adult foliage. Fast-growing, Semi-deciduous. Hardy - 4m x 12m
<i>Plagianthus regius</i>	85 mm	\$0.50	Medium	Manatu Ribbonwood Medium sized, wind resistant, spreading tree. Small, divaricating, juvenile foliage is replaced by larger birch-like adult foliage. Fast-growing, Semi-deciduous. Hardy - 4m x 12m
